ABSTRACT

This computer-assisted career guidance bibliography contains references to the SIGI Plus and SIGI (the System of Interactive Guidance and Information). The bibliography is divided into these sections: Systems; Theoretical Foundations; Evaluation and Research Reports; Program Descriptions; and Supporting Materials. Citations are from the years 1966-1990. Journal articles, dissertations, conference papers, and monographs are included.

The SIGI PLUS and SIGI bibliography contains references to the following
computer-assisted career guidance systems:

SIGI PLUS*

SIGI (the System of Interactive Guidance and Information)

The reader is cautioned against making generalizations about the equivalence
of different versions of a computer-assisted career guidance (CACG) system
when substantial content and process changes have been made. Features that
were or were not effective in one version of a CACG system may not be retained
in revised versions. In situations where CACG system content or process
changes have occurred, practitioners need to evaluate the issue of equivalency
either through existing research, or at a minimum, conducting a thorough
comparison of system features.

This bibliography is organized as follows: Systems, Theoretical
Foundations, Evaluation and Research Reports, Program Descriptions, and
Supporting Materials. The Clearinghouse does not provide copies of the
original documents. To locate the original documents please refer to the
appropriate journal, book, or sponsoring organization. Additional information
on SIGI may be obtained from the SIGI Office, Center for Occupational and
Professional Assessment, Educational Testing Service, Princeton, N.J. 08541,
(215) 750-8093. Additional information on the above topics may be obtained
from the Association of Computer-Based Systems for Career Information
Clearinghouse, 1787 Agate Street, Eugene, Oregon 97403, (503) 346-3996.
